Message from the Investment Office

September 2019 was again a very busy month for the Investment Office. We were part of the delegation of President Recep Tayyip Erdoğan during his official visit to the US on the occasion of United Nations General Assembly Meetings. This and the US Secretary of Commerce’s recent visit to Turkey in September both further strengthened the strong strategic partnership between Turkey and the US.

Last month, the Investment Office also hosted delegations from Hong Kong and Germany in Istanbul and gave insights on Turkey’s investment environment. Another prominent event in September was the UK-Turkey Business Forum, where we participated as the keynote speaker.

In conjunction with the visit to Turkey, Investment Office President Arda Ermut addressed a high-level US business delegation from the US Chamber of Commerce at an executive meeting held in Istanbul. “As the Investment Office, we are more than willing to contribute to improving economic relations between Turkey and the US; in particular to achieve the target to increase bilateral trade to USD 100 billion, as set by President Erdoğan and President Trump,” said Ermut.

The second edition of TEKNOFEST Istanbul Aerospace and Technology Festival, organized by the Turkish Technology Team Foundation (T3) and the Ministry of Industry and Technology took place on September 17-22 in Istanbul. Turkey’s most extensive festival covering aerospace, space, and technology events, TEKNOFEST lasted 6 days and boasted attendance of 1.7 million tech-focused people.

REBALANCING CONTINUES IN THE TURKISH ECONOMY IN LINE WITH TARGETS

Following 1.6 percent growth q-o-q in the first three months of 2019, the Turkish economy expanded by 1.2 percent in the second quarter of 2019, suggesting that economic activity is bouncing back after the contraction experienced in the second half of 2018. The capacity utilization rate of manufacturing in the country increased to 76.2 percent in August, up from 75.9 percent in July. Also, PMI increased to 48 in August, up from 46.7 in July. Finally, a significant decrease in CPI, PPI and core inflation indicates that the year-end targets set on anti-inflation and robust growth policies will be achieved.

Commenting on the Turkish economy’s current overview on different occasions, the Minister of Treasury and Finance Berat Albayrak said the economy has met the targets set by the ministry. Speaking at a press conference after the Central Bank’s announcement on rate cuts - the Monetary Policy Committee decided to reduce the policy rate by 750 basis points in its last two meetings - Minister Albayrak said the inflation rates of 2019 will be below targets unveiled with the New Economic Program. He also added that a decrease in loan interest rates is expected following the rate cut.
